

I want to make it clear to you that K-LOVE WJKL(94.3 FM) serves an important role on my community. I enjoy it becise it is the only station in the Chicago area that plays contemporary Christian music without all of the commercials. Not only do they provide encouraging music for me and my family, they also serve my community by announcing events in my area. It would be a great disservice to not allow K-LOVE to remain on the air.
